

POL17 OPERATION CLEAN SWEEP POLICY

PACCOR TURKEY AMBALAJ SAN A.Ş as a plastic packaging manufacturer, we aim to reduce the negative effects of pellets on waters and natural resources by fulfilling our responsibility to prevent the negative effects of pellet loss on the plastic industry and the environment with this policy.

- ✓ To this end, to increase our contribution to water quality and wildlife conservation
- ✓ To ensure full compliance with rainwater regulations with legal obligations
- ✓ To consider pellet losses and controls in our operations processes
- ✓ To reduce the pellet losses that may occur as a result of our production, storage and transportation activities
- ✓ Instead of removing raw materials from our company as pellet loss, to bring them back to production by taking GMP and food safety principles into consideration
- ✓ To provide awareness about this policy and the responsibilities it brings by carrying out the training of our related employees, including our subcontractors, on this issue
- ✓ To ensure that all our stakeholders are informed about this policy that we apply
- ✓ To be able to eliminate the risks related to work accidents that may occur as a result of the spillage of pellets
- ✓ To implement regular audit and training programs to ensure the continuity of the system
